## 01 Send the Kids Off to College with Reassurance

For the millions of parents who will be sending a son or daughter off to college this fall. So many things are coming into play with the new guidelines.

Main things to take in account are products for their safety. Making sure they have products to keep them safe like mask, cleaning supplies, personal care products and hand sanitizer.

It is also important to make sure they have a reliable mode of transportation. If they are taking a family vehicle it is always a good idea to have the vehicle checked over before they go. You will have piece of mind knowing they are travelling with a safe vehicle.

Some other priority lessons to send them away with is knowing how to do their laundry, cooking some basic meals, and learning the basics of banking; such as how to write a check, using an atm card and balancing a check book.

Your family will make it through this time and kids will notice all of the support they have received to get them to this point. Try to relax and know they will call if they need you!
